I would certainly recommend Arena to be a strategic partner. They have trustworthy expertise in their field and this, combined with their good understanding of our business, has transformed the way we work with documents. 

Bradford Grammar

The staff are really professional and helpful and that's the main thing; they always get back to me so quickly when I have a question. 

Central College Nottingham

We know Arena's technicians have a broad technical skill set and enough man-power to resolve any problem quickly. 

Grantham College

We're experts in emerging technologies for education

Our expertise goes beyond copy and print to include software, scanning and electronic document management. Our proprietary software, **mstore** for education, has been developed and refined working closely with our education customers for over 25 years.

We're well placed to open your eyes to new ways of working, integrating print hardware with records management and rethinking everyday workflows that absorb time and create hassle. Our specialists help you transform the efficiency and productivity of your organisation – streamlining enrollment, ensuring student record compliance, preparing for audits, and managing HR, finance and health and safety – whilst delivering substantive cost savings that can free up valuable budget for other priorities.

We are really happy with the way **mstore** is transforming the way we work with documents. 

Durham Trinity School

**Choose Arena, a genuine technology partner you can depend on.
Visit www.arenagroup.net/cpc to find out more.**

*Feedback from approximately 200 surveys gathered from July – September 2016 by our Customer Relationship Managers who continually visit our customers to ensure that their needs are met.
