KONICA MINOLTA

STREAMLINING DOCUMENT SERVICES AND SOLUTIONS IN EDUCATION

We can help you to reduce administrative costs, deliver services more efficiently, and enable you to focus on your primary mission of serving students and effectively managing your operations.

TRANSFORM INFORMATION FLOW AND STREAMLINE YOUR PROCESSES

Information and content flows throughout your schools, college or university every day, Konica Minolta helps you to understand how and where this information and processes currently exist, we ensure that documents are captured, managed and stored so they can be accessed quickly and simply capture whenever and wherever they are needed.

WASTED PAPER AND PRINT?

- Reduce your print volumes and paper usage by up to 15%
- Control when documents are actually printed
- Eliminate the paper that sits in the bin at the end of the day.

SECURITY

- Ensure confidential documents remain confidential
- Ensure sensitive documents do not start printing until the user is there to collect.
- Stop unapproved usage of your print devices
Validate the user by pin codes, swipe cards or biometrics

STUDENTS

- Improved student experience
- Be a technology leader
- Print from mobile or bring your own device

Konica Minolta's Print Management Consultants will recommend the most suitable software solution from our range of industry-leading applications. All solutions are installed and supported by Konica Minolta personnel for seamless one-stop integration.

DEVICE MANAGEMENT

- Print to the most effective device
- Redirect printing to the print-room meaning you no longer hold up the office devices with large jobs.

TRACK AND CONTROL USAGE AND BEHAVIOUR

- Track all printing, copying, scanning & faxing across your organisation
- Report by user, department, year group, print device.
- Implement rules to route large print jobs to the most effective device

WASTE AND ENVIRONMENTAL SAVINGS

- Eliminate wasted paper sitting on your print devices at the end of the day
- Jobs printed but never released can be deleted from the server after a set period of time

We aim to reduce its environmental impact in all its business processes, from product development to procurement, production, distribution, sales and service, collection, and recycling.
