

# NATIONAL EDUCATION FRAMEWORK

For Multifunctional Devices and Associated Print Services and Supplies

REF: CPC/DU/MFD/02A

## HP is on the CPC Framework

### Have you considered HP for your Managed Print?

Optimise your infrastructure, manage your print environment and improve your workflow through our customised Managed Print solution that's right for your institute. Digitise and streamline document intensive processes—improve workflows in admissions, financial aid, registration and student services to improve outcomes where it counts. You can find out more from our partners in Lot numbers 1, 3, 4 and 5.

# Are you safe?

Hackers can intercept printing and imaging jobs travelling over the network from devices to printers, manipulate printer settings and functions from unsecured control panels, and access privileged data

[Secure your institute](#)

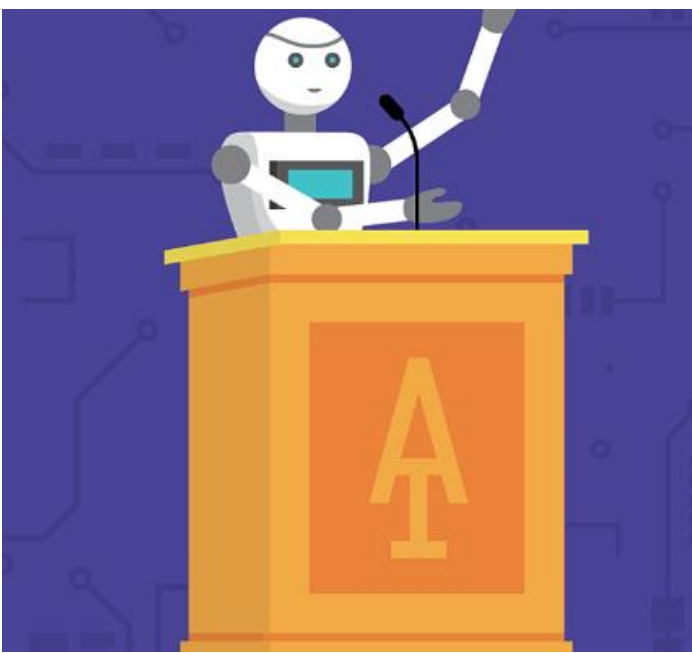

# Is your print sustainable?

Across our powerful printing portfolio of LaserJet and PageWide devices, continuous innovation ensures that each new generation of printers uses materials efficiently and is more energy efficient than the last. We used 1,100 tonnes of recycled plastic in 2017. That's three times more than 2016.

[Reduce carbon foot print](#)

# The future of Print:

Thanks to advances in printing innovation you could save money, find efficiencies, enhance security, cut down on waste, and implement powerful workflow optimisations. Yes, paper has that big of an impact, your educational institute stands to gain in everything from productivity to security with a few upgrades.
